for tire cords. Cotton was not

- strong enough. The chemist working on this plastic had been unsuccessful for years and
- became depressed and died suddenly. He always ended up with a wad of gum like material.
- His workmate was also frustrated by his efforts and grabbed a wad of the gummy stuff with both hands
- and pulled it apart and wham! it formed a string that actually cut his fingers.
- That is how nylon came to be. And to this day nylon is made by stretching the gummy base!
- Conclusion: **frustration is near success - keep going.**
-
- Now here a couple of secrets we have gleaned from years of affiliate marketing.
-
- **Secret number one** - earn money on the internet by selling other products with no costs on your end. Below are 12 affiliate marketing sites that will pay you to affiliate with them. These affiliate marketers represent some of the largest stores like Target Drugstore.com Walmart.com etc.
-
- Below we list the Big Three Affiliate Marketing Companies.

- **Secret number two** - affiliates like you drive and control ecommerce on the internet.
- Did you know Amazon represents tens of thousands of small companies selling their items and you can sell all of Amazon products at no cost and of course earn commissions?
-
- **Secret number three** - most of your earnings will come from your leads list and you must have a e-responder to handle emailing to your leads
-
- Did you know that a lot of the time you purchase anything on the internet you are purchasing through a affiliate? The stores furnish the banners and logos for affiliate to place.
-
- Another mistake that many new marketers (and even some seasoned ones) make is falling into the trap of always seeking "the next greatest thing". Hyped up offers will pop-up all the time and it's important to avoid subjecting yourself to most of them. These "Hyped up" offers on how to get rich overnight are all SCAMS, every single last one of them. Focus on building a business and don't look for something that will make you a millionaire overnight...it just won't happen.
-

We will discuss Three Strategies

Strategy A - Marketers that want to start with little or no investment and grow invest up to \$10 per month
Potential earnings - up to \$3000 per month

Strategy B - Marketers that want to start - investment - \$25 to \$50 per month
